The History Behind it . . . What is a monument? A monument is a physical object, such as a building, pillar, or statue that is built to keep the memory alive of a person(s), persons, or event . A memorial is something (not always a physical object) such as a monument or holiday that is intended to remind people of an aspect of history.

Ancient Egypt is one of the world's great civilizations. After a unified kingdom arose around 3150 BC a series of dynasties ruled Egypt for the next three millennia. During this incredible long era the ancient Egyptians produced some of the most famous monuments in the world of which many have survived the ages.

Spanning over two thousand years in total, what is called ancient Egypt was not one stable civilization, but instead a civilization in constant change and upheaval commonly split into periods by historians. Likewise, ancient Egyptian architecture is not one style, but a set of styles with commonalities used during each period of ancient Egyptian history.

A monument is a type of "usually three-dimensional" structure that was explicitly created to commemorate a person or event, or which has become relevant to a social group as a part of their remembrance of historic times or cultural heritage, due to its artistic, historical, political, technical or architectural importance.

Examples of monuments include statues, (war) memorials, historical ...
